REPORT OF THE  
DIVISION OF IMMIGRATION AND AMERICANIZATION  
FOR THE YEAR  
JULY 1, 1972 to JUNE 30, 1973

The Division of Immigration and Americanization in fulfilling its function "to bring into sympathetic and mutually helpful relations the Commonwealth and its residents of foreign origin" ended a most trying year of fifty-six years of service on June 30, 1973, with having rendered 47,445 services to 22,499 individuals. The Boston Office noted 24,690 services to 8,938 persons; Fall River 2,636 individuals with 5,414 services; Lawrence 7,827 services to 4,094 applicants; Springfield 3,540 services with 2,316 persons and Worcester 3,513 clients received 5,974 services with Boston showing less services than last year due to loss of personnel as two workers who left the Division were not replaced.

Our services in helping adjustment of the newcomer from abroad, in helping citizenship applicants and information and assistance in the various aspects of immigration problems requires the expertise and knowledge of the technicalities of immigration and naturalization laws as well as knowing social resources for referral in family situation. Our social workers and agents have helped solve every phase of immigration and naturalization status. The charts at the end of the report detail the various services given in our five offices.

NATIONALITIES OF CLIENTS

Of the one hundred countries of birth, as we record nationalities of the applicant, last year the highest number of services were to Portuguese with 5,792 (of which 3,759 were in our Fall River office) then Greek with 3,681 (in Boston 2,266), Italy with 3,447, Canada 2,646, Cuba 2,366, Poland 2,173, Jamaica 2,055, United States born 1,810, Dominican Republic 1,742, Ireland 1,562, China 1,213, Uruguay 1,203, Colombia 1,916 etc. For the past few years the largest alien group in Massachusetts has been the Portuguese. Of 384,685 immigrants to U.S. and 13,364 to Mass., in 1972 - one third came to Massachusetts - some 3,600. About every city and town in the Commonwealth is represented as residence of our clients.

In 1920 when the count of services was 18,521, we have steadily increased and now for the past ten years we have averaged 51,000.

REORGANIZATION RECOMMENDATIONS

Under the reorganization plan of the Governor this Division with direction of the Executive Office of Educational Affairs, in bill 6160 was recommended to be abolished on the premise that there were other agencies where our applicants might be serviced. It was suggested that two particular agencies who have foreign born clients and who assist in some aspects of our service might be able to perform the service which we give

in our five offices covering the State. Neither agency would be adequate and they only operate in Boston. One Agency with a most limited staff would not be able to tend the needs of the many foreign born persons. The other agency had only a part time worker, working on immigration problems. The Multi Service centers in vicinity of Boston render assistance in some aspects of assimilation as housing, etc., and a few had attorneys on the staff who are not specialists in immigration laws and none have the expertise knowledge of laws and procedure to meet the needs of the large number of problems of foreign born in the Commonwealth. The teachers in evening schools and civic education, citizenship classes no doubt, teach the alien and assist in assimilation with basics of English, but they do not perform any actual work in problems in reunion of families abroad, naturalization procedures, applications, etc., and helping solve the many involved matters.

Chapter 69 Section 11 under which the Division operates:

"The director of the Division of Immigration and Americanization with the approval of the advisory board thereof shall employ such methods, consistent with law, as in its judgment will tend to bring into sympathetic and mutually helpful relations the Commonwealth and its residents of foreign origin, protect immigrants from exploitation and abuse, stimulate their acquisition and mastery of English, develop their understanding of American Government, institutions, and ideals, and generally promote their assimilation and naturalization. For the above purposes, the Division may cooperate with other offices and department of the Commonwealth and with all public agencies, Federal, State or Municipal. It may investigate the exploitation or abuses of immigrants and in making any investigation may require the attendance and testimony of witnesses and the production of books, and documents relating to the matter under investigation."

In 1919, the Bureau of Immigration established in 1917 was placed under the Department of Education. Chapter 572 of 1965 reorganizing the Department of Education placed the Division of Immigration under the Board of Higher Education. Chapter 704 of 1969 established the Executive Office of Educational Affairs embodying all the segments of the Department of Education.

In this Commonwealth of 5,688,903 persons according to 1970 census 494,880 foreign born and 1,397,064 have parents either foreign born or mixed parentage so that one-third population is considered of foreign origin.

There are 180,531 aliens registered in Massachusetts as of January 1, 1973, of whom 163,632 are legal residents and 16,899

in some temporary status. Over 12,000 new immigrants giving Massachusetts as their destination came to this Commonwealth in the past year. Massachusetts ranks seventh in the United States with number of aliens and the list attached shows the many nationalities and non-English speaking persons represented. The Portuguese with 41,621 is the largest foreign speaking group, with Italians 17,890, Greeks, 8,922, Cubans, 4,004, etc.

Newcomers from the Latin countries and Western Hemisphere form a major part of the arrivals. They are largely from Dominican Republic, Colombia, Guatemala, Ecuador, Jamaica, Trinidad, Tobago, Barbados and lesser from El Salvador, Peru, Argentina, Brazil. In the past ten years Massachusetts welcomed 153,760 new immigrants. The nationality of those arriving year ending June 30, 1973, follows and cities and towns of their destinations are on charts at the end of this report.

## IMMIGRATION PROBLEMS

The present law of permitting 170,000 immigrants from the Eastern Hemisphere to come to the U.S. with preferences to the relatives has greatly eased the situation to have brothers and sisters and married children of U.S. citizens join their relatives without waiting for a number of years as was formerly the case for Italians and Chinese. This situation remains the same with relatives of a few groups, as Philippines Hong Kong, Cape Verde Island and some British Colony subquotas. Our offices made 1,559 petitions in behalf of relatives. Our assistance included translation of foreign documents necessary to support such petitions as well as follow up with execution of affidavits of support and in many cases further correspondence with consuls abroad.

## NONPREFERENCE

Because of the availability of the nonpreference quota, many benefited this year to become residents. A number of elderly parents visiting their alien children in the U.S. had decided to remain in the U.S. and were able to adjust under Section 245 after the proper procedure was completed for them. We have the thanks of several Turkish born parents, a number of Greek ladies, a Russian and several Polish persons.

The fifty-three orphan applications made for children under fourteen concerned children of several nationalities, the majority of them Portuguese or of Cape Verde birth and in many cases children of a father who had never married the mother. Now in the U.S. married to a citizen of the U.S., he was anxious to have his children join him. One such case involved triplets who were permitted to come and join their father under this law and are now legally adopted!!!

## LABOR CLEARANCES

The labor clearance regulation prevents many a young person from emigrating to our State. Prospective immigrants without close families, as parents or spouses, sisters or brothers, are subject to obtaining approval of a job through labor department clearances. At present the approval of applications filed for "necessary skilled labor" has not been given because of availability of U.S. labor. Persons seeking information from us have been carpenters, masons, or other workmen, now no longer considered in the "shortage category"

Information on immigration matters and procedures is the category in which we have the largest count and we have

referrals from many social agencies, teachers, ethnic groups inquiring for information and assistance in the many problems of quotas, etc. For certain countries, various procedures must be followed. To have someone come from Poland, the matter is initiated with an assurance made in Polish which, after notarizing, must have legalization by the Polish Consul. Sent abroad to the applicant, it is the initiation of his request for Polish passport to go abroad. We assisted 231 persons in this way. Proper preference relative petitions and affidavits of support for permanent residence or visits must also be made.

#### USSR EMIGRES

We assisted 94 persons in making assurances to have their relatives come from USSR. This document is in Russian and English, must not only be notarized but further legalized by the Seal of the Commonwealth and then the Department of State before being sent abroad for application for the exit permit. A few were for permanent residence and the majority for temporary visits. The procedure established, permitting some USSR residents to come as refugees via Rome, Italy, has reunited five families whom we assisted, were from Erevan, Armenia, USSR. The problem of the Jewish immigrant to Israel and to the U.S. is still unsolved

#### CUBANS

We assisted 296 Cuban-born persons to file applications to become permanent residents in the U.S. Although 4,004 Cuban born are listed in the alien register roster of January, 1973, estimates are larger. A great number have become naturalized now. However, no more airlifts from Cuba bring these persons as this program terminated May, 1972. The total Cuban refugees admitted were the 621,403 from January 1, 1959, to 1972, when the airlift terminated.

Ninety-two thousand ninety-seven Cubans were naturalized in the U.S. during the past ten years and in 1972 they were the largest group, 18,397. Although the airlifts bring no more from Cuba, some refugees as parents and children have come in this status from Spain.

Applicants for whom we initiate applications to become residents require execution of several forms with pertinent information of arrival and address and employment and always the personal documents needed to support these applications as birth, marriage, death, and divorce records are translated by our workers to accompany the applications.

## WESTERN HEMISPHERE QUOTA APPLICANTS

Practically all these cases were family reunions, and a number of illegally resident aliens. They were persons who had entered as visitors, the majority between twenty and thirty-five years of age, coming from countries where the economic situation was most depressed. They started to work shortly after they came to the U.S. and many times moved from their original destination and then forgot or intentionally omitted to ask for extensions of stay, and were married in U.S. to legal residents or U.S. citizens. Many were apprehended by the U.S. Immigration and Naturalization Service, but many voluntarily reported to the U.S. Immigration office. Because of family ties they were given opportunity to adjust their status by application at the nearby Consul in Canada. Some were mothers of aliens who chose to live in the U.S. after a visit here. Many aliens not authorized to work did find jobs because employers claim they are unable to find U.S. workers who will take those jobs. Many of these aliens were exploited by their employers by being required to work extra hours for which they were not paid, the withholding of overtime, and sometimes paid substandard wages.

However since the regulation of April 1973, is now in effect whereby illegally resident alien married after April, 1973 are not given the privilege of extension of time, to wait for action of the Consul in Canada, most applications have been started at the Consulates of their countries where they will return to wait for their turns in the quota. Most of them are spouses of resident aliens and none have criminal records nor have been recipients of public relief.

The first come first served policy of registration in the Western Hemisphere quota of 120,000 is the cause of anxiety to spouses. A number of our applicants who have come here within the past few years have returned to Jamaica or another Western Hemisphere country and married while on a few months visit, returning to their jobs in the U.S. Immediately they start the procedure to have the spouse be registered in the quota and wait for issuance of visa. The spouse immediately comes to our office to start the procedure to have the husband join her. The spouse will be registered by execution of the Form I-550, but must wait his or her turn as it counts only from date of marriage and the wait in the Western Hemisphere quota is some twenty months at this time. Among the waiting wives are several prospective mothers almost desperate in their anxiety.

Among the many immigration bills on Congress is one having passed the House which would establish preference similar to those now given applicants of Eastern Hemisphere birth and this corrects a sad situation.

ALIENS IN MASSACHUSETTS REGISTERED AS OF JANUARY 1, 1973

GRAND TOTAL 130,531

PERMANENT RESIDENTS 163,632

OTHER THAN PERMANENT RESIDENTS 16,899

TOTAL 12,049

## SOCIAL SECURITY CARD ISSUANCE

New legislation introduced in Congress would provide for prosecution of employers who knowingly hired illegally resident aliens. A recent arrangement has been made with the Immigration Service and the Social Security Office for check and issuance of social security cards. Applicants for such cards must furnish, if non-native, proof of citizenship otherwise proof of legal residence or permission to work issued from the Immigration Service. If an applicant can present no proof that he has been authorized to take up employment, no social security card will be issued him and the U.S. Immigration Service notified. This procedure, it is hoped will help to stop the illegal alien situation and prevent such large numbers found in the country. It is believed there are many thousands of such persons illegally in the U.S. with social security cards. Implementation of the check-up procedure will prevent new such individuals from getting cards in the future.

## PROBLEMS OF SEAMAN

A number of cases we have assisted have been the seamen in the U.S. several years, who had not returned to their ships after shore leave. Now married to a citizen or resident of the U.S. he has a family dependent on him. Many of these are young Greek-born in whose behalf we have acted. The U.S. Immigration Service grants them voluntary departure status and on petition of the spouse either nonquota or preference quota is established putting them in line for immigrant visa action. Their applications have been processed at the Consulate in Halifax. Most of them were able to get the proper passport from the country of their birth, but for some who had not served in the military before departing from Greece this was not possible, as one of the requirements of the Canadian Immigration officials is that the person entering Canada must have a passport. Several returned to Greece to face fines, etc., as appointment with U.S. Consuls in other nearby countries could not be obtained or entrance into those countries without proper passport was impossible.

## CITIZENSHIP AND NATURALIZATION ASPECTS

Some 116,215 persons were naturalized in the U.S. in the year ending June 30, 1972. From the latest report with detailed figures available, Massachusetts naturalized 3,210.

In our five offices, we filled 1,859 applications for petitions of citizenship. From the U.S. Immigration and Naturalization Service report of this 3,210 naturalized their nationalities were: Portugal 554, Canada 373, Italy 352, Greece 277, United Kingdom 205, China 176, Germany 145, Poland 120, etc.

The report gives median age of persons naturalized as 34.4

In the past ten years the largest groups naturalized in the United States were:

|                |         |
|----------------|---------|
| Germany        | 126,435 |
| Italy          | 98,845  |
| Cuba           | 92,097  |
| United Kingdom | 85,688  |
| Canada         | 75,072  |
| Mexico         | 56,950  |

Fear of being unable to pass the examination has prevented many older persons from applying for citizenship. A few of our applicants were in the category of exemption as they could sign their names and answer questions on the Government and History of the United States, but could not read.

In Congress for the past several years there has been introduced the law that persons, then fifty years of age and having completed twenty years residence in the U.S. would be exempt from tests for admission to U.S. citizenship. Several of our applicants await and hope for favorable action and passage of this law.

The recent enactment of two years' residence after age 14 for parent of a child claiming citizenship through his mother has helped several of our applicants.

Our booklet, "The Constitution of the United States with questions and answers in preparation for citizenship" is printed yearly and 10,000 distributed to applicants for citizenship, civic classes, civic groups, and foreign ethnic clubs.

Applicants for certificates of citizenship of whom we helped 198, have been mostly children of parents recently naturalized but several persons and the cases concerned had lived in U.S. since early childhood, having no knowledge of information of entry from overseas. Because no arrival could be verified to prove entry into the U.S. they had to go through registry procedure by furnishing proof of residence for many years in U.S.A. Much correspondence and search of census records had to be made but success came in the end and the trip abroad was possible with issuance then of U.S. passport!!!

We have been privileged to have the fine aid of the U.S. Immigration Service personnel in our work who are always ready to aid in solutions.

Appearances at hearings at the U.S. Immigration Service in applications we completed for the applicants, answering many

inquiries on information and procedures from other social agencies, teachers, attorneys, and concerned citizens in ethnic groups, assisting students who call on us in projects for research, correspondence on the many cases, contact and interchange with other social agencies comprise the various phases of what we do.

At the hearing on the Reorganization Bill H 6160 recommending abolishment of this Division, many leaders of Ethnic Groups, City and State Officials, Attorneys, Social Agencies, as well as individuals came to the hearing and protested against the abolition of this Division - some 10,000 signed petitions were presented to the Chairman of the Committee.

This Division established in 1917 has always been the mecca for the foreign born to come for assistance in many problems of assimilation. The stream of immigrants is continuous. Immigrants with their contribution to the cultural and economical, social background of the U.S. have always contributed both sociably, economically, culturally, to make this country the best country in the world.

The status of the Division under the Reorganization Bill is still undecided as is all the reorganization structure and further action no doubt will be made.

For the writer of this report, it is the final one, as Supervisor of Social Service for the past sixteen years, and a service record of fifty years with the Division. I know I have the gratitude of many individuals helped, and grateful for the knowledge that I have played my small part in "assisting the alien in assimilation to the mutual benefit of the foreign born and the Commonwealth". As Ralph Waldo Emerson wrote, "America is another name for opportunity; our whole history appears like a last effort of divine Providence in behalf of the human race".

## REPORTS OF DISTRICT OFFICES

### SPRINGFIELD

On June 30, 1973, the Division of Immigration and Americanization completed sixty-six years of service fulfilling its duties of helping to protect our citizens and non-citizens from exploitation and abuse bringing the foreign born in the sympathetic and mutual relations with the Commonwealth, developing their understanding of American Government, its institutions and ideals and generally promoting and assimilating their nationality.

The last seven months of the year proved to be a very trying period and it was most difficult under the circumstances to properly perform our duties and to remain dedicated. It was brought to our attention unofficially by a newspaper article appearing in the Lowell Sun on December 4, 1972, that it was proposed under the Reorganization of the Board of Higher Education that our agency of State Government be abolished. When this fact became known to our clients, the majority of whom we have served for many, many years, they expressed their opposition, unhappiness and resentment. They inquired about what they could do to retain "our office". They volunteered to sign petitions and corresponded with their Legislators to register their opposition to the elimination of our Division. Based on their own knowledge, they stressed the fact that our services are not available from the Federal Government nor from any other public or private agency.

Individuals and groups contacted legislators both of the House and Senate from the Western part of the State alerting them to the recommendation of abolishment. With information of the work of the Division they were asked to consider the matter in the interest of their constituents, and register their opposition to that portion of the HR 6160 which would eliminate our entire organization which consists of the main office at Boston, and Branch Offices At Fall River, Lawrence, Springfield and Worcester. Many of these Legislators replied with thanks for bringing the matter to their attention. Some have expressed their opposition to the elimination of our services while others have promised their most serious attention when the Committee on Education has reported to their respective branches of the Legislature.

Near the close of the fiscal year, it was rumored that the United States Immigration and Naturalization Service may close their Field Office at Springfield. If this develops there will be a greater need for the services of our office. Should it come to pass that the proposed abolition of our Agency becomes a reality and the Federal Government closes their Field Office, the residents of our area - Western Massachusetts - will have no agency with the technical knowledge and skill to assist them.

During the year 3,540 services were given to 2,316 individuals. Applicants came to us from forty-six cities and towns in our area. We had correspondence with eighteen persons, former residents who now reside in other parts of the country. Our statistics indicate that our applicants came from eighty-four countries. This year the native born citizens of the United States was the largest group we served followed by natives of Canada, Jamaica, Italy, Greece, Poland, Germany, Philippines, Barbados, England, Korea and Portugal.

As has been the custom of the United States Immigration and Naturalization Service, they furnished to our organization the names and addresses of 816 new immigrants destined to reside in Western Massachusetts. Of this number 641 came to Hampden County, 85 to Hampshire County, 75 to Berkshire County, and 15 to Franklin County. To these individuals we mailed a letter of welcome and extended to them an invitation to call upon us at anytime for advice and assistance with any problem they may encounter in adjusting to their new way of life in America. We advised them of the educational opportunities available to them especially those offered by the Adult Evening Classes. They were instructed to conform with the regulation which requires them to report a change of address and to file the Annual Address Report. Male persons between the ages of 18 and 26 are informed of their obligations to register for Selective Service.

The decrease in applicants for citizenship in part is largely due to the unemployment situation. The majority of applications we did handle were prepared for those who were most anxious to become citizens at the earliest possible date as they desire to travel abroad as United States citizens or to qualify for a license for some State Board.

This year we received an unusual number of telephone calls from irate residents - both citizens and resident aliens - who wished to report illegal aliens residing and working in the United States who are depriving either the caller, a relative or a close friend of employment. Since we are not a Law Enforcing Agency and have no authority to investigate and taking an individual into custody, we directed the complainants to immediately appear before the local United States Immigration Service or to telephone them for the purpose of furnishing full particulars about the violators.

The several public and private agencies with whom we are in contact have been most cooperative. Especially has this been true of the United States Immigration and Naturalization Service, both at Springfield and Boston.

We shall greatly miss the splendid cooperation of the two dedicated members of the Federal Immigration Service at Springfield. The General Attorney for Naturalization, Mr. Joseph Murray, retires late in June and the Investigator, Mr. John Burke, retired last February. Neither of these gentlemen have been replaced as of June 30th.

## LAWRENCE

During the fiscal year ending June 30, 1973, the Lawrence District Office rendered 7,827 services to 4,094 clients. This is an increase of 236 services over the previous year. We served individuals from almost eighty countries last year. Two out of these countries, Canada and the Dominican Republic, accounted for almost 30% of our clients. Lawrence has become the home of an extremely large number of Spanish speaking people and the city in general has reflected this influx. Newspaper ads, store signs, banks and even the post office render information in both English and Spanish. Our office has also become geared to serving Spanish speaking people to the extent that this Agent has learned sufficient Spanish to conduct an interview entirely in that language.

This past fiscal year has been an extremely busy one for the Lawrence office. In December, along with our high volume of cases, a new problem came to plague us - the Governor's State Reorganization proposal which included suggestion of abolition of our Division. We have since been working under tremendous pressure, never knowing when the proverbial Sword of Damocles would fall and our office would be closed. Leaders of the various ethnic groups from Lawrence, Lowell and Haverhill contacted the Governor, asking him to reconsider his decision to close this office. Newspapers and radio stations in the area as well as legislators, local political figures, private and public social service agencies, churches, attorneys, leaders in industry and private individuals who were familiar with our services expressed their great concern to lose services of the Division and recommended reconsideration of the abolishment suggestion. The immediate response far exceeded our expectations. Letters were written to the Governor, newspaper articles appeared, the radio stations broadcast our plight, the Lowell and Lawrence City Councils passed resolutions protesting our abolition. A protest petition circulated in the area came back with almost 5,000 names on it.

As to this writing, the matter is in the hands of the Joint Committee on Education and has not yet been resolved. We are hopeful that the proposal will be rejected in committee and by the General Court. General consensus of opinions is that services so long in existence and so vitally needed and used by so many people cannot be terminated. It is hoped that our Legislative leaders are going to permit us to continue serving the people of the Commonwealth as we have been for the past fifty-five years.

In spite of the specter of abolition looming in the background, our work in all areas of immigration and citizenship continued at a brisk pace. Assistance in immigration and citizenship matters, travel information, translations from Arabic, French, Italian and German documents for both this

office and the Boston office are continuing at a high rate. Each newcomer to this area is sent a welcoming letter offering our facilities when needed. As always, we continue to maintain good relations on behalf of our clients with the various private and public agencies both in the United States and abroad.

The Neighborhood Youth Corps is continuing to provide us with the services of local youngsters who have proven to be of immeasurable help in doing the routine work of the office.

We are most hopeful that this will not be the last annual report of the Lawrence office, but that our Division will be permitted to serve the people of Massachusetts for many years to come.

### WORCESTER

The Governor's Reorganization Plan created a real bug-a-boo for the 3,515 persons that we assisted with 5,964 services. Therefore within a few months, we accumulated 20,000 signatures protesting the proposed abolition of the Division of Immigration and Americanization, of which the Worcester District Office is an integral segment.

Possibly the proponents don't realize the onus of this pending legislation, but our clients express their observations while signing the petition to retain the Division. They cannot obtain this type of service from any other agency, and the immigration, naturalization, americanization, and travel problems, and forms they encounter are too difficult, comprehensive, and technical for them to solve. The ones that traveled to the U.S. Immigration and Naturalization Service, Boston, Massachusetts, found the venture time consuming and frustrating because the function of that office is completely different than our endeavors in their behalf.

Testifying at the Legislative Hearing on House Bill No. 6160, held at the Worcester State College, Worcester, Mass., the Agent reiterated these sentiments, as well as submitting a local newspaper article, titled "State Service Called Vital For Aliens, Closing of Immigration Office Opposed", and another lengthy, pictorial, Feature Parade issue on "The New Life Of The Greek Immigrant". Ethnic leaders from nationality groups, and clergyman, extolled the virtues of the Worcester office, especially in relation to their needs and requirements. The part of the hearing pertaining to our Division appeared favorable.

But at the close of this fiscal year the specter of abolition is still up in the air. Numerous clients leaving the office say in a solemn manner "I hope the Governor doesn't close the office", knowing that they would be losing a friend.

## FALL RIVER

At the close of the fiscal year, July 1, 1972, to June 30, 1973, the Commonwealth completed fifty-six years of service to its residents.

A total of 5,414 services were rendered at the Branch Office in Fall River.

The work at this office consists of giving information mainly on immigration and citizenship problems - 2,282 such services were recorded this year. Assistance in completing applications required by the Federal Immigration and Naturalization Service authorities as part of naturalization proceedings or in connection with immigration proceedings - 1,666 such applications. Execution of Affidavits - 240 such services recorded. Other services which include translation of documents, writing letters to various agencies, assistance in immigration cases to adjust status from temporary or irregular one to a permanent resident status - such services totaled 664, and Newcomer Interviews were listed at 562.

Individuals served at this office were listed at 2,636. Many of these people returned two or three times seeking other required services.

These clients came from thirty-one separate localities in Southeastern Massachusetts and they included natives and citizens of fifty-one separate countries. These ethnic groups were made up largely of Portuguese nationals, followed by natives of Philippines, China, Brazil, Poland and a smattering of other nationalities.

In the last seven years an enormous number of Portuguese immigrants were admitted and they are now the largest ethnic group in the Southeastern Massachusetts area.

Under Governor Sargent's proposed reorganization plan, it has been suggested that the Division of Immigration and Americanization be eliminated. This would create a tragic problem to the immigrant in seeking assistance in immigration and citizenship problems as the recent upsurge in immigration during the past seven years in this area the majority were processed through the Fall River Office.

Many changes in citizenship and immigration laws makes it imperative that trained personnel is of the utmost importance in dealing with every day problems.

The Fall River office continues to channel all applications to the Federal Immigration Service at Boston and sends a list of naturalization applicants to the Adult Education Departments at New Bedford and Fall River in order that they may school them prior to taking the naturalization examination.
